

**THE ROLE OF GENERAL AND PROFESSIONAL CULTURE IN THE ACTIVITY OF  
THE WRESTLING COACH.**

**Aslanov Nasillo Sharipovich**

*Independent researcher of Bukhara State University*

**Abstract:** *The article examines the general and professional culture of teachers and their role in teaching.*

**Keywords:** *teacher, culture, activity, profession, skill, component, experience, attitude, worldview, process.*

It is well known to all of us that in the Republic of Uzbekistan special responsibilities are assigned to the moral image, intellectual potential and professional skills of teaching staff. So what should a modern teacher be like? Today's global changes, the daily development of science and technology and information and communication technologies require pedagogical skills, sharp will, pedagogical and psychological knowledge, deep knowledge of their subject and high thinking, political literacy, from the teacher of the 21st century. In addition to demanding to be broad and thoughtful, general and professional culture should be sufficient. Language is a reflection of time and a tool for shaping people's worldview. The past and the present are connected by the succession of generations, and language provides spiritual continuity and shapes the culture of peoples. In professional activity in physical education and sports, the ability to speak confidently is important, as well as attracting young people to physical education and sports, expanding the number of fans of their favorite sport, and increasing the number of sponsors to finance training. Also, language, speech is considered an important tool in competitive events, establishing relations with various levels of state bodies, increasing the prestige of winning athletes. The rapid popularity of wrestling as a new sport in the world and becoming a universal value is a great gift to the people of the world. Regardless of the language, religion, and nationality of Kurash, people of the world have entered the hearts of the people, and they, without hesitation, widely use Uzbek words such as "Ta'zim", "Kurash", "Halal", "Yonbosh", "Chala", Ghir-rom in their lexicons. The rapid popularity of wrestling as a new sport in the world and becoming a universal value is a great gift to the people of the world. Professional speech is the speech image of an expert. The speech image of a wrestling coach is a purposefully formed speech image of a physical education and sports specialist, which

has a positive emotional and psychological effect on the audience and reflects his professionalism. Undoubtedly, the speech image is a component of the future teacher-coach culture. In the "Concept of bringing the national sport of wrestling to a new stage until 2025", approved on the basis of the Decision of the President of the Republic of Uzbekistan No. PQ-4881 of November 4, 2020: to convey the rich traditions and values of the sport of wrestling inherited from our great ancestors to the future generations, fight under the name of the Uzbek sports brand to increase their role in the world arena, to further strengthen the sense of patriotism among young people by supporting and encouraging their interest in national sports, in order to create the necessary conditions for all strata of the population, especially young people, as well as the nations of the world to engage in this sport: training of professional wrestling trainers, referees, development of educational and methodological manuals, strengthening of the scientific and methodological base of wrestling; taking measures aimed at ensuring the high status and prestige of the coaching profession, creating favorable conditions and opportunities for full self-expression and professional growth, formation of a positive image of the trainer as a person engaged in educating the young generation for the successful development of the state, etc.

The research work entitled "Pedagogical features of the development of the professional culture of the future wrestling coach" serves to a certain extent to ensure the performance of these tasks. The historical, cultural and pedagogical foundations of introducing young people to the sport of wrestling are explored in the articles and methodical recommendations of F.A. Kerimov, A.A. Roziev, K.T. Yusupov. Modern basics of physical education and sports activities in the educational institutions of the republic - health of young people, Introduction of special "Alpomish" and "Barchinoy" tests on the level of physical fitness of students of vocational colleges in Uzbekistan, formation of a healthy lifestyle of schoolchildren and students, study of valeology and game-related methods in physical education classes I.A. Koshbakhtiev, A. ... Arzumanov, B.A. Kadyrov, X.A. It was reflected in the scientific and methodical works of the Melievs.

The importance of professional speech in the activities of physical education and sports specialists has been studied to some extent in the researches of V.K. Balsevich, P.A. Vinogradov, L.P. Matveev, and G.S. Tumanyan.

From the above, it can be concluded that there is a need to determine the pedagogical features of developing the professional culture of the

future wrestling coach. The task of selection in the multifaceted system of training of wrestlers is important. He has the knowledge and pedagogical experience of a coach based on different conditions for young and highly qualified athletes identifying the most talented athletes using qualifying criteria is represented by qualification.
