Key words : *punctuation, punctuation, speech, Uzbek language, written and oral speech.*

Uzbek in the language main pause characters 10:

1. Dot (.);
2. Question symbol (?);
3. Exclamation symbol (!);
4. Comma (,);
5. Two dot (:);
6. Dotted comma (;);
7. Many dot (...);
8. Dash (–);
9. Bracket (());
10. Quotation mark ("").

Punctuation - writing window . Writing through expressed each one talk content , meaning types and syntactic parts between different relationships in determining of punctuation place important Punctuation the writer and between the reader social contact intervention is also important in providing .

Punctuation of the tongue syntactic construction with organic depends is written speech correct , expressive , clear statement doing , his methodical fluency , fast be understood in providing benhoya necessary is a tool . Scientific in sources , training in manuals pause of characters application method and order of punctuation logical - grammatical , methodological and differentiate principles based on determination is emphasized . In this makes sense grammar principle of speech semantic- grammatical side in writing right to express directed if , differentiation principle based on the rules pause of characters double without in use order , in the sentence complicated content clarification need when of them use ways set will give . Methodical principle pause of signs use speech styles based on to define mean holds , but this not so much right not because certain one style only characterized pause sign it won't be . Necessity at birth each how also wanted in style pause from the sign use can. Pause signs written speech

correct , expressive , logical statement in doing , him in condensing the parts of the sentence mutually logical-grammatical relationships in showing important graph tool as is used . Punctuation , one from the side to the writer own written speech exactly , right and expressive statement reach opportunity if he gives , the second from the side , to the student certain in the text the idea the writer statement as the writer to the goal according to understand get opportunity creates. Pause of signs application of words content , grammar construction and to the tune according to is divided Some pause of characters application talk content with depends will be Including : wants to express has been content completed if , point , exclamation , question sign , three point is placed . Not completed or explaining concepts a lot point or brackets with is expressed .

In the matter pause of characters place if it changes talk content and syntactic the structure also changes . Punctuation is social event periods pass writing of culture growth with Punctuation has also changed improving went Periods the transition of writing progress and writing of culture growth with Punctuation has also changed and improved goes In writing initially applied pause of characters put on role , method , tasks as now sure and complicated was not For example , at first star and rhombus from 10 of the type more than hints point in place used of the XIX century to the end come , in writing present of the point application after they decided from point came out So period on demand depends without punctuation system changed goes , perfects . Also punctuation and punctuation system interlanguage each is different . Punctuation some nations in his writing earlier in some while relatively later appear was For example , English language punctuation in the system ten two pause there is a sign . Them apostrophe and hyphens are also punctuation sign is counted . Uzbek in the language and 10 pauses sign there is . Punctuation system Russian written in the 18th century , Uzbek in his writing and of the 19th century second from half after to the body came

Take a break signs own to the task according to , to two is divided ;

a) limiter pause characters are specific syntactic of structure or in general talk the limit report , any part of the sentence intonation substantive in terms of separate show , speech directed person or subject name cover taken , as well as the writer's (speaker 's) . subjective relationship expressed syntactic structure the limit show for service doer

b) separator pause signs-independent sentences , their parts (head and follow sentences are connected and without a binder joint of words predicative parts) of the sentence organized pieces , togetherness to follow joint talk , talk expression to the goal according to types of , catch that it is divided pointer pause signs .

Application instead of according to pause signs into 3 groups is divided .

a) At the end of the sentence applied pause characters ; point , question and exclamation symbol

b) In the middle of a sentence applied pause symbol comma

c) Mixed , that is talk different in places applicable pause signs ; dash two period , quotation mark , parenthesis and a lot point

Take a break of signs application as follows :

1. Opinion completed if so , his to the content according to point , question , exclamation signs and three point is placed .

Of these a lot with three of them one talk At the end of coming maybe , but from him a lot together does n't come More question and exclamation sign together coming can :

Why? you book don't you read ?

Or question and three point one talk At the end of coming can In this question and two point is placed . In question one point at the expense of three point complete will be

Now teacher won't they come ?

2. Incomplete or comment Demand who does from thoughts after three point is placed . For example , Koklam from the sun bruised hills , blue ...

If such a sentence is an interrogative sentence , above as we said , ask sign and two point , if it's about emotions exclamation sign and two point is placed . For example :

I am an orphan I grew up , oh, he's an orphan !

Different feelings - excitement expressed in sentences pause characters :

1. In the sentence question and emotion meaning if so , ask and exclamation sign put :

What if you talk ? it has been ?!

2. Feeling - excitement and question meaning if exclamation and question sign put Oh how I'm dead places ?

3. Strong feeling - excitement if exclamation sign two times put :

How is this nonsense , that's it how oppression !!
